

Fresh Air For Life Clean Air For Health

Ultra high purity air circulation rate no dead ends

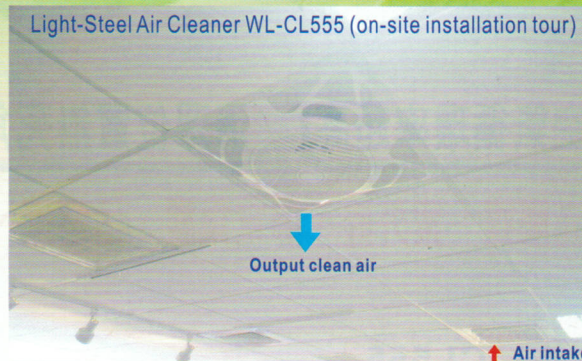

Light-Steel frame type

High rate of air circulation

Clean location Hassle

Increase in living space

Photocatalyst, UV light, electrostatic precipitators, activated carbon, ion purification such as multiple security

WL-CL555

CEILING TYPE ELECTRIC FILTER

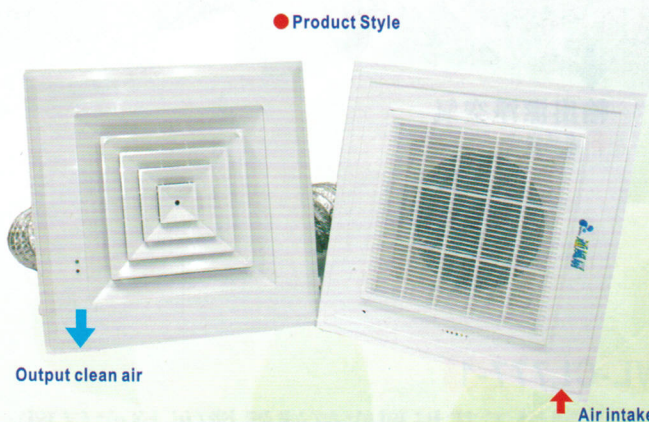

Nano Photocatalyst
Air purification tank

● Product Style

WL-CL777

NANO PHOTOCATALYST CEILING CLEANER

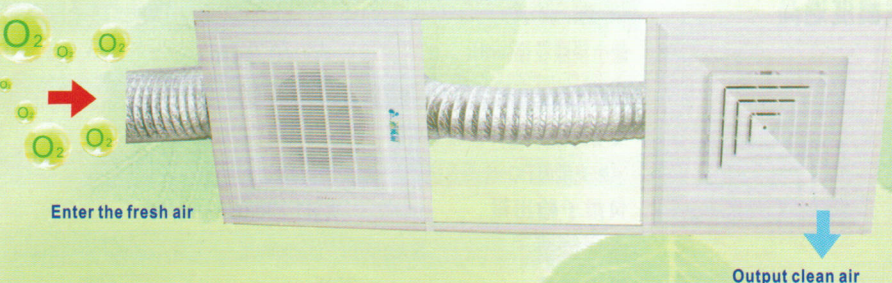

● Product Style

WL-CL777-1

NANO PHOTOCATALYST CEILING CLEANER(External air type)

Enter the fresh outdoor air, indoor oxygen content increased to avoid high concentrations of carbon dioxide

Enter the fresh air

Output clean air

	WL-CL555	WL-CL777
Dust collection efficiency	80%	
Minimum set size (um)	(0.3um)	
Degradation of volatile organic gases(VOCs) Performance	80%	
Double Ended Ceramic UV rays Bactericidal efficacy	99%	
Nano Tio2 photocatalyst sterilization efficacy	99%	
Negative ions output	1,236,000 ions/cc	
Air volume	2000CFM(<3mmAq)	1000CFM(<3mmAq)
Application area	20pings	10pings
Weight (KG)	5+7+3.7(15.7)	5+5(10)
Power supply	AC110V/220V 50/60Hz	AC110V/220V 50/60Hz
Power Consumption (W)	123W	82W
Frame size (mm)	598x598	
Required depth	377	270

Air pollution can be removed, for example: cigarettes, dust, bacteria, Copier Toner, pollen, allergies and numerous other pathogens
